REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-4 are allowed over the prior art of record because the prior art of record, viewed as a closest prior art and considered in combination or individually, fails to suggest or fairly teach an apparatus including: a disc-like substrate being held between a holder main part and a pressing plate with a formation region of an irradiation pattern on the disc-like substrate and a partial region of at least one of an outer edge and an inner edge of the disc-like substrate being exposed; and a control unit that causes a moving stage to move the substrate holder based on a movement pattern with a reference point set in advance on the moving stage as a reference so that an irradiation pattern is formed on the surface of the disc substrate by irradiation with an energy beam, the control unit calculating, during formation of the irradiation pattern, a center of the disc-like substrate based on at least one part of an outline of the exposed outer edge or inner edge of the disc-like substrate and setting the calculated center as the reference point as recited in claim 1. Claims 2-4 are allowed with their respective parent claim.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
